TerraCycle

In 2010, the Office on Aging teamed up with eco-wise business, TerraCycle (terracycle.net), to collect waste materials that are not accepted by our local recycling program. Terracycle donates 2 cents to the South River Senior Trust Account for each non-recyclable snack bag, laundry detergent cap, spray trigger, toothbrush, #6 cup, ink jet cartridge, lipstick tube or other scrap that's sent in (they even pay postage). Then they upcycle the goods into unique, eco-friendly products ranging from tote bags and purses, to shower curtains and trash cans, which are sold at retailers such as Target, Home Depot, Petco and Whole Foods. By finding new and innovative uses for these products, the company prevents thousands of tons of waste from going to landfills. Be a part of our eco-revolution: collect **ONLY** the items listed below and bring them to the Office on Aging at your convenience.

ANY brand
chip & salty snack
bag

ANY brand
personal care &
