MAYOR'S ADDRESS

Mayor Krenzel's Inaugural Address follows:

Inaugural Address

January 1, 2016

English: Good Afternoon

Port: Boa tarde

Polish: Dobry wieczor (dobri vyehchoor)

Russian: Dobryj Dyen (dohb-rihy dyen)

Spanish: Buenas tardes

Hungarian: Jo napot (Yo na-pot)

Many languages—some old to South River—some new. There is much that is new in South River. The old neighborhoods of the Hungarians, Poles and Russians have long disappeared to be replaced with a mixture of new people coming in with new ideas and new ways. It is a new South River.

That is how I began my Inaugural Address on January 1, 2012.

Four years later, it is a time to look back, not only at last year, but also look at the past four years, and see where we have been and where we are going and where we can go.

I said in 2012 that it is a new South River. If it was not “new” before 2012, it certainly was afterwards. Superstorm Sandy has changed South River and we are still feeling its effects. The loss of revenue both in taxes and utility collections hurt the town financially. Fortunately, the financial plans put into effect beginning in 2014 and carried onward through 2015, have put South River in a good financial position.

I proposed one year ago to begin to wean South River's reliance from the electric utility's surplus. This beginning has been realized with two electric rate decreases for both residents and businesses. In 2016, we will bring in less money from the electric utility to the town budget. I plan to carry this process for future years and slowly wean the town from using electric utility surpluses.

But enough of dry finances. These are exciting times in the new South River.

Our long, arduous journey to build a new firehouse is finally coming to an end. In the Spring, the foundation will be poured and the walls will rise. This has been a long, journey but a necessary one. The town will soon have a modern firehouse that will protect the residents for years to come.

Redevelopment is taking shape. On January 19th, the South River Planning Board will host a town meeting that will introduce the first step that hopefully will lead to a revitalization of the downtown area. This will provide jobs, housing, and bring in much needed tax revenue.

There will also be other areas of development or change, most the average resident will not even notice. For example, we will continue to change our street lights to more efficient LED bulbs. We will continue our street paving program and plan to replace outdated equipment. Our Police Department, re-accredited in 2015 by the New Jersey State Association of Chiefs of Police, will receive cutting edge body worn cameras keeping it abreast of the latest policing technology.

South River is facing the 21st century head on. There will be, of course, the naysayers: The gloomy Gus's that never see anything good in any change. They will

not get us down. As it was once said very truthfully, 'Those people who do not like change are afraid of what they are going to lose. They never think of what they are going to gain.' If a person has something constructive to say, by all means, come and say what is on your mind. South River needs to look positively to the future, and all are invited to participate.

So, let us go into the future together. There is much to be done. Let us roll up our sleeves and make South River even better than what it is.

On behalf of the entire governing body, I would like to wish everyone a healthy, happy and prosperous new year. I congratulate and welcome new Council member Ryan Jones and welcome back Council member Shawn Haussermann. Together with Jim Hutchison, Michael Trenga, Tony Ciulla, and Jim Gurchensky, it is my hope that the governing body will work together for the betterment of all the people.

And I would be amiss if I did not thank the South River Board of Education and school system for allowing us to meet here today—it is always appreciated.

I ask for your support and prayers that 2016 will be, as the old wish goes, happy, healthy, and prosperous for us all. God bless South River and God bless the United States of America.

Councilman Hutchison moved that the Mayor's address be spread in full in the minutes. Councilman Haussermann seconded the motion. So carried

New Councilmembers Comments

Councilman Jones' comments follow:

Those objections pertained to a decision by our governing body to give our architect \$68 thousand more for the firehouse, despite no legal or justifiable reason to offer him this extra money besides his request for it. As stewards of the taxpayer's finances, I disapproved of this action. Spending decisions like this happen regularly, yet our Council suggests there's no room to lower tax rates, or at least keep them level. If you don't consider taxpayer money in decision-making, how can we trust you?

Let's talk directly about the firehouse. I support the needs of our firemen and understand the need for a new firehouse. Councilman Haussermann supports these same needs. The rest of the governing body does as well. Let's put to rest this ridiculous claim that anyone up here is against the firehouse. It's simply untrue. What is true, however, is that when I first learned of this project, members of this body were claiming it wouldn't dare cost more than \$5 million. But because the project wasn't properly budgeted or planned, we're now watching the costs associated with this project exceeding \$10 million. When your unofficial fiscal estimates are so off, how can we trust you?

Our residents have a right to be upset by the ever-increasing price tag. Questioning these costs have been spun by others on this governing body as being against it altogether. That type of talk needs to stop. For instance, the town was in talks to purchase property at the original site of the project for nearly \$1 million, even though that same property now sits, unpurchased, for less than half of that today. Residents have a right to question decisions like this, and if your decisions don't make fiscal sense, how can we trust you?

After hinting towards efforts to explore redevelopment for over two years, our governing body now seem to be celebrating a redevelopment plan that would effect the entirety of our downtown in ways we currently can't fully appreciate. Despite all this time, the specific details envisioned are still not public, despite a schedule to vote on the plan later this month. The lack of detail prevents our residents and other interested parties from making an informed decision for which to base their evaluation of the plan. I can't help but think that hiding details of this plan is being done intentionally for one reason or another. Considering all of the other questionable decisions you've made over the past few years, how are we to trust you now?

It really tells you something when a newcomer to politics receives more votes than everyone else on the ballot. I think distrust is the word that best explains this reality. Our voters are expressing their distrust at the ballot box. As the governing body, we need to listen to these concerns and work hard to restore them. Losing their trust can have real ramifications for our town's future. As a result, I'm making it a major focus; doing everything I can to restore this trust.

Trust is built upon several things. Residents must be confident that the government is acting transparently, it must also feel satisfied that the government is working in residents' best interests, and finally, it must believe that our future is brighter than our past. I think we are currently failing in these three regards, and these failures have given way to our current frustrations.

Let's work together to change our behavior and return this trust. It's probably appropriate to end reciting our town's motto for the benefit of everyone upon this dais. South River: A community with a proud past and a bright future.

I want to be just as proud of our future as I am of our past. We must come together and change our ways and reinspire this trust from our neighbors. As long as we can ensure that our government is one that serves you, South River's future is bright. Let's do what's right.

Councilman Haussermann moved that Councilman Jones comments be spread in full in the minutes. Councilman Hutchison seconded the motion. So carried.

Councilman Haussermann's comments follow:

Welcome to:

Assemblyman Pat Deignan, Assemblywoman Nancy Pinkin, Judge Berman, Judge Rafano

Thank you once again to the BoE for the use of their facilities for this day. This is one of many examples of shared services agreements which provide for the best utilization of taxpayer-funded resources. It is one idea helping to save our taxpayer dollars.

You get to hear a lot of great ideas from all of us here on January First. And throughout the years, I've heard some whoppers.

Back in 2011 Mayor Eppinger promised to break ground that year on the new Firehouse. He had already authorized a \$20,000 study of all the buildings in town which showed that a combined Firehouse and Rescue Squad could be built on Borough-owned property for \$6 million. If only he had made that happen! It has been four long years later and we have only begun driving in the 300 piles necessary to stabilize the contaminated ground that was finally chosen as the site for a Firehouse alone. With a projected cost of already over \$10 million, the first change orders and additional architects fees have added another \$100,000. How high the cost will go is unknown as we have no Budget to work with.

He also promised a 2 megawatt Solar Farm would be built in the South End to provide the town with cheap, clean energy for many years to come. But he and his Councilmen refused to put the project out to bid and their hand-picked Contractor failed to build it.

That same year, Councilman Hutchison said that with the new Smart Electric meters that were installed with a grant obtained by Congressman Rush Holt, our individual electric customers would be able to opt for the electric rate best suited by their own usage. It never happened. He also said he would task the Economic Development Committee to work the new-at-the-time Master Plan to revitalize the Downtown. Then when we gave the EDC a larger budget to do so, he cut it back.

In his 2012 January 1st speech, Mayor Krenzel told a good one. He said that ideas are welcomed at the Council meetings. If any of you have seen a Council meeting, you know that that isn't true. They are welcomed only if you agree with the Republican majority's view. If you criticize them, you're soon in trouble, whether it's being mocked, or yelled at or even questioned yourself.

In 2013, my running mate, Councilman Jim Jones promised to be an unstoppable voice to get the flooding stopped in South River. He later teamed up with Councilman Hutchison in a bipartisan ad Hoc Committee to work towards flood mitigation projects being proposed at the time. I'm not sure what happened with that.

In 2014, Mayor Krenzel brought up how overdue South River was for a tax revaluation of all the homes and businesses in town. That was two years ago and nothing has been done. What is your plan, Mayor?

I read in the Star-Ledger that the State will be forcing us to do it if you do not act soon.

That same year, Councilman Hutchison stated that he would task the BA and the CFO to find grants to fund the Firehouse project. Did we get anywhere on that?

In his 2015 speech, Mayor Krenzel mentioned how, in the previous year's Budget that I had a part in putting together, it would have been very wrong to use the \$600,000 that had been saved for rate relief because it was a so-called "one-shot deal". But he had no problem when a \$300,000 "one-shot deal" of leftover funds from my previous Budget was used this past year.

I am relating all the past statements of my colleagues on the dais to show you that much of what they say has no connection to what they do. They regularly make claims and charges against us when they have no evidence or basis in fact. And worse, they come up with these big new ideas that they either refuse to or can't explain.

I really didn't enjoy composing this year's speech because I would much rather look at what is to be done in the coming year, not dwell on the mistakes of the past. But in the coming year, there are decisions to be made that can change the very future of South River. And from all I can see, they will take South River in the wrong direction. And since I returned to the Council three years ago, I have seen how my Republican colleagues always refuse to compromise on any issue or anything. And yet they go on and on about being bipartisan and saying they are acting in a bipartisan manner, when in reality they vote as one partisan block every time. To them, the only way to be bipartisan is to vote with them; it's never the other way around.

The big new idea they are pushing is the so-called redevelopment of the Downtown business area. It may sound like a great idea. But when a local businessman asked to look at the report being put together some time ago, he was told by the Borough Attorney that it is not public yet. That was in 2010. And if you ask for information on the plan today, you still cannot get an answer. Why won't they tell us the exact plan of what they want to do? I have an idea.

At the Convention in Atlantic City last month, Councilman Ryan Jones and I attended a number of seminars dealing with Redevelopment and noticed some interesting details. From this, I

believe that my colleagues on the dais, once they get a Redevelopment Plan pushed through, want to go into the Real Estate business. Our Planner, Mr. Bignell, gave us some details of what the plan would allow them to do. They could sell Bonds to obtain funds to buy properties in town, putting you and I on the hook to pay them back. They could convey these properties to interested developers without competitive bidding. They could grant these developers up to thirty-year tax breaks by having them pay through PILOT programs.

Sure, we might get a few new buildings built in town, but PILOT agreements send no monies to the School budget. And if these new buildings include higher density housing, such as the plan for the old Lincoln School property, you and I will pay more out of our pockets to handle the increase in the student population. The developer gets the the deal. The developer gets the profits. You and I foot the bill. That is not what the residents of South River need.

As the Plan is finally explained to us, I am sure my colleagues will assure us that they will do only what is in the best interests of our residents. But how can we believe them? Look at their experience! These gentlemen behind me are the very same gentlemen who signed a contract to buy the Elks property for the Firehouse project for \$950,000. They were told that a deed restriction precluded putting such a building on the property, but they went forward in court to get it lifted. They wasted tens of thousands of our tax dollars fighting it, but they lost. They wouldn't listen. They wouldn't compromise. They failed. And worse, today that property is still for sale for \$350,000 no takers. These Donald Trump wannabees behind me were willing to pay \$600,000 over what the property was worth.

Look at their experience with their first project Downtown, the Municipal Parking Lot. After spending almost \$200,000 we have a lot with maybe two additional spaces. That's \$100,000 per space. And when it was done, they couldn't even get the lines to match up with the meters. They had to go back and fix it.

There are better ways to make a better South River than what my colleagues propose. They follow the principles that I and my fellow Democrats, past and present, have believed in and succeeded in. Compromise with me and you can succeed, too!

For the Downtown, I propose we use the HCD we get for the next few years and do another Streetscape program like the one so successful in the '90's. The current condition of the trees, pavers, lighting and design is over twenty years old now. Instead of this ridiculous Redevelopment Plan, let's make the Downtown look brand new and offer grants and tax breaks to the existing businesses and let them make the decisions only a businessman can make.

For the Electric Utility, I propose we look again to the idea of a Solar Farm at the DPW yard. In one of the seminars I attended, construction of a 1 MW solar array can be done with a 4 year payback and after 4 years provide savings and income from the PJM grid of up to \$675,000 a

year. The plan that was botched by the previous administration was for a 2MW facility. The income stream from the project will be the solution to our insanely high electric rates, and will finally take away the need for the political manipulation of the rates we have seen happen in the last year. And yes, I know you will say that the ground there was contaminated. But that didn't stop you when you put the new Firehouse on the two most contaminated properties in town. And there are brownfield programs that promote minimal penetration design solar arrays to reclaim the use of such properties.

There are many more ideas that Ryan and I absorbed from the seminars at the convention and we will be presenting them to you in the upcoming months. They are great ideas utilized by other cities and towns and are proven to be successful. Compromise with us! Be truly bipartisan for the first time! In a few moments, when we look at the appointments to be made today, you will have the opportunity to make compromises that may not be good for your party, but will be good for the people. Compromise with Councilman Ryan Jones and I. Don't send South River further backwards, take South River Forward!

Councilman Jones moved that Councilman Haussermann's comments be spread in full in the minutes. Councilman Hutchison seconded the motion. So carried.

Council President Hutchison's comments follow:

Thank you and I wish everyone attending this afternoon and all those watching on Channel 35 or via the internet a very Happy New Year.

First, I want to congratulate and welcome back both Mayor John Krenzel and Councilman Shawn Hauserrmann and also welcome our newest Councilman Ryan Jones to this administration.

Next, I want to thank the entire Council for your support and confidence in nominating and electing me to continue serving as your Council President.

Before I get going, I do have to acknowledge one councilman. I always look at those who have stepped down since the last election and I do have to say, again, I'd like to recognize former councilman Jimmy Jones and thank him for his service. When you talk about bi-partisanship, Jimmy was pretty much bi-partisan. And, now he's on that side of the fence. Interesting.

Before 2015 becomes part of the past, I'd like to highlight some of the accomplishments:

- After years of discussion and planning, we had the ground breaking ceremony for the Jackson Street Fire House. Work began and recently, the installation of the pilings phase was completed. Mother Nature has been very kind with the recent weather conditions which is helping us maintain the work schedule. I look forward to the opening of this new structure that will support the public safety in our Borough and protect our residents and businesses for decades to come. I want to thank all those, especially our brave firemen, who have and continue to provide support and direction for this project.
 - The Obert Street Municipal Parking lot was repaved and reconfigured for the first time in nearly 25 years. I think that was a very successful project. As Councilman Trenga has stated on numerous occasions, this is the initial step in the revitalization of our downtown area.
-

- A generator was installed at the DPW that will provide backup electric power to that facility in the event of a power failure similar to what we faced in October of 2012 with Hurricane Sandy. Most importantly, the generator will provide power to the water pumps necessary to maintain the water pressure throughout the Borough in the event of an electric outage. Thus, the water distribution system will continue to flow to all users. And, our fire hydrants in the Borough will be available for our firemen if, God forbid, a fire breaks out at any residence or business.
- Thanks to the efforts of Councilman Ciulla, we have new energy efficient lighting on our street lights in the downtown area which will save the Borough 10's of thousands of dollars annually. We will continue installing these energy saving LED fixtures in 2016.
- We lowered the electric rates by ordinance changes twice in 2015, resulting in an approximate 8% reduction in the consumption charge across the board for all classifications.
- And, finally, after many years of debate, the budget committee and the administration took the first step by reducing the amount of funds transferred from the electric surplus to the current fund on an annual basis. As he Mayor stated, further reductions will be planned in the 2016 budget.

As 2016 unfolds, the revitalization and redevelopment of the downtown area will continue to be a major focus. The pilings on Jackson Street will soon support our new firehouse. The Budget Committee will be charged with submitting a fiscally responsible plan for the Borough for not only 2016 but for the future.

All this and more will be made possible with the help, guidance and support of many, including our dedicated Borough employees, our Borough professionals, our residents and business owners, all working together with the Mayor and Council.

Like all New Year's, there is a fresh feeling of hope and promise. The same is present this first day of 2016. I look forward to working with Mayor Krenzel and the entire Council in moving the Borough forward.

It continues to be an honor and privilege serving the Borough of South River. I wish everyone a very Happy, Healthy, Safe and Prosperous New Year. May God Bless America and the Borough of South River. Thank you very much.

Councilman Ciulla moved that Councilman Hutchison's comments be spread in full in the minutes. Councilman Jones seconded the motion. So carried.

As done in the past with new Council members, Mayor Krenzel presented a white golf shirt with the Borough of South River logo to Councilman Jones.

New Jersey municipalities operate electric utilities as departments of local government. As such, each utility must comply with all requirements of the local finance system.

- 1. Segregation of Trading and Risk Management Functions.** The trading function may be assigned to one or more persons in the direct employ of the municipality or to an outside company under a professional services contract. This function may also be provided through an intergovernmental agreement with another municipality or state authority. The risk management function is the responsibility of a management level employee subject to the oversight and approval of the local governing body
- 2. Types of Transactions.** All transactions within electricity markets are for the sole purpose of serving load within the corporate limits or franchise area of the municipal electric utility. Traders are expressly prohibited from speculating in any electricity market. Authorized transactions shall include:
 - a. Two-party purchases or purchases from and sales into the PJM spot market.
 - b. Purchases of physical energy delivered to the aggregate bus of the municipal electric utility or to other commonly traded points within PJM.
 - c. Transactions within the FTR Markets of PJM Interconnection, LLC with the sole intent to hedge congestion risk where such risk is associated with the

municipal electric utility's obligation to serve load or rights held by the utility to generate electricity. All FTR Market activity shall be confined to such size and pathways that are either generally proportionate to or generally do not exceed the utility's physical transactions. All such transactions shall be consistent with the expressed intent to hedge its physical transactions.

3. **Qualifications for Trading Functions.** Employees, contract service providers, or employees of another municipality or state authority retained under an intergovernmental agreement must demonstrate the ability to fulfill the requirements of the municipal electric utility. Primary functions shall include
 - a. The ability to effectively and reliably transact and schedule within electricity markets.
 - b. The ability to effectively and reliably manage the utility's wholesale power supply portfolio.
 - c. The ability to interface effectively with representatives of PJM Interconnection, LLC and electricity market participants.

These abilities may be demonstrated through experience with successful transactions, scheduling, and portfolio management within PJM Interconnection, LLC.

4. **Independent Review.** New Jersey municipalities that operate electric utilities as departments of local government must:
 - a. Transact in electricity markets in compliance with New Jersey's Local Public Contracts Law, including N.J.S.A. 40A:11-5 regarding advertisement for contracts and permitting procurement of electricity through a State-approved procurement model and N.J.S.A. 40A:11-15(24) regarding the term of contracts.
 - b. Adhere to the Local Budget Law (N.J.S.A. 40A:4-1 et seq.) which provides that municipal public utilities are supported by the revenues generated by the respective operations of the utilities in addition to the general taxing power upon real property. The local governing body must adopt a separate utility budget, which must be balanced and provide fully for debt service. Annual cash basis budgets must be in the form required by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the 'Division'). Proposed budgets must be approved by the Director of the Division prior to local adoption.
 - c. Adopt an annual cash management plan in accordance with N.J.S.A. 40A:5-14 and may purchase securities under the plan as prescribed in N.J.S.A. 40A:15-1 et seq.
 - d. Comply with the Local Fiscal Affairs Law (N.J.S.A. 40A: 5-1 et seq.) which regulates the non-budgetary financial activities of local government. The

Local Fiscal Affairs Law further requires the chief financial officer of a municipality to annually file, with the Director of the Division, a verified statement of the financial condition of the local unit and all constituent boards, agencies, and commissions.

- e. Cause to be performed an annual independent examination of each local unit accounts by a licensed registered municipal accountant. This examination must conform to the Division's "Requirements of Audit" and must be published in the designated newspaper within 30 days of its submission pursuant to N.J.S.A. 40A:5-4.

IX. TERM OF PLAN.

This Plan shall be in effect from January 1, 2016 to December 31, 2016. Attached to this Plan is a resolution of the Governing Body of the Borough approving this Plan for such period of time. The Plan may be amended from time to time. To the extent that any amendment is adopted by the Council, the Designated Official is directed to supply copies of the amendments to all of the parties who otherwise have received the copy of the originally approved Plan, which amendment shall be acknowledged in writing in the same manner as the original Plan was so acknowledged.
