## OTHER UPDATES

### A Vision For Downtown

**Revitalization**  
DOWNTOWN STREETScape  
A COHESIVE VISION FOR OUR DOWNTOWN

We think we can do even better with our downtown. We have numerous specific proposals and are using HCD grant moneys to implement this project this summer.

Learn more: [southrivernj.org/revitalization/](http://southrivernj.org/revitalization/)

### Outdoor Cafes

We recently passed an ordinance that eliminated the fee and made it easier for sidewalk cafes to open in town. Together we're working to make our downtown more vibrant.

### "Plant One On Me" Program

Bring On The Shade! The Environmental & Shade Tree Commission is taking applications for their fall shade tree plantings. The deadline to apply is September 15th. Inquire at 48 Washington or email: [srshadetree@gmail.com](mailto:srshadetree@gmail.com).

### Website Improvements

Each month we add new content to build out our existing borough website to provide info to clarify our services. We have a long way to go but encourage you to visit to stay informed.

## 2018 MAJOR EVENT CALENDAR COMING SOON

...giving you more time to plan.

## COMMUNICATIONS

Now that the Monthly Buzz is in its 5th month, we've learned and fixed many of the challenges we initially faced. Some have informed us that they're not getting it on time, and believe we've fixed that issue. The Communications Committee is also working hard to develop a fair and sensible policy to allow for an expanded calendar format to better serve the community. This will include resident and business participation. Good ideas take time to implement and we thank you for your patience as we continue to get this concept off the ground.

Learn more: [southrivernj.org/communications.html](http://southrivernj.org/communications.html) Contact us: [communications@southrivernj.org](mailto:communications@southrivernj.org)

## Working to Streamline Your Property Matters

We want to streamline our services. DO•it is a suite of services that allows residents

to instantly report and track issues as well as obtain publicly available data. We're currently in beta to work out the kinks and will be adding additional features and services. Check it out!

## Parking Improvements

We're working on several efforts to make parking more plentiful, accessible, and convenient. We're starting by reducing metered parking hours back to 6pm. We're committed to making our downtown even more welcoming.
