Dear Mr. Tinitigan:

Thank you for considering our Firm for the above referenced work and allowing us to submit this proposal for professional services associated with the above referenced matters.

SCOPE OF SERVICES

In accordance with your request, we are submitting an estimate of the project costs associated with the preparation of a Risk and Resilience Assessment (RRA) and Emergency Response Plan (ERP) for the Borough's Water System as required by the America's Water Infrastructure Act (AWIA) of 2018.

Section 2013 of the AWIA requires Community Water Systems (CWS) that serve more than 3,300 people to meet the following requirements:

- Development of a Risk and Resilience Assessment (RRA)
- Prepare/Update an Emergency Response Plan in accordance with the RRA
- Submit a Certification for each to the USEPA
- Review and update the documents every five years
- Maintain the required records

The law established deadlines by which water systems must certify completion of the RRA and ERP based on the population served. For Community Water Systems like the Borough's with a population served between 3,301 and 49,999 the deadline for the RRA certification is June 30, 2026. ERP certification is six months from the date of the RRA certification but no later than
